## What's there for you?

### Need Based Scholarships

Need-based scholarships are awarded based on financial need and/or background of the student. These scholarships are available for low income families to ensure that students are able to continue their education with reduced financial burden to their family.

### Merit Based Scholarships

Many government and private organisations offer merit-based scholarships to help deserving students in their education. These scholarships are designed to motivate students through rewards to excel in studies and make a positive contribution to society.
